Own Delivers Game-Changing Data Solutions for Customers Using AWS

Liat Ashkenazi, [Own](#)'s senior vice president engineering and Israel general manager, talks about the customer focus it shares with AWS, and how working together they help businesses master their mission-critical software-as-a-service (SaaS) data. The company's platform handles exabytes of data, maintaining the availability, security, and scale its customers expect.

Own empowers its customers by helping them protect and activate their valuable software-as-a-service (SaaS) data for major enterprise applications such as Salesforce, ServiceNow, and Microsoft Dynamics. Using Amazon Web Services (AWS), Own can store and protect data while meeting protection and compliance needs. With a cloud-native innovator not only helps clients secure data but also enables data transformation.

Hi, I can connect you with an AWS representative or answer questions you have on AWS.
