

# Cleveron's Intelligent Devices Boost Buildings' Energy Efficiency Using AWS

[View All Customer Stories](#)

"We can analyze the data [and] we can decide to increase cloud performance or reduce [it] based on what we need. That's what we can do with AWS."

**Pietro Gagliardi**  
*CEO and Founder, Cleveron*

Hi, I can connect you with an AWS representative or answer questions you have on AWS.

Need more info? Highlight any text to get an explanation generated with AWS generative AI.

Cleveron develops Internet of Things (IoT) solutions to help companies run non-residential buildings more sustainably. Handling the data from thousands of devices every second poses a significant scaling challenge, but with AWS IoT Core Cleveron has the power to meet demand and give clients the tools to make better decisions about energy use. Pietro Gagliardi, the startup's CEO and founder, is excited about expanding the business and helping more organizations achieve their green ambitions.
