

HeyJobs Keeps Focus on Innovation Using AWS Managed Services

Contact Us

“We use AWS Managed Services so we don’t have to take care of operations or security updates of key systems ourselves, but can enjoy the speed of innovation and let our engineers focus on differentiating features.”

Boris Diebold
Chief Technology Officer, HeyJobs

Hi, I can connect you with an AWS representative or answer questions you have on AWS.

Need more info? Highlight any text to get an explanation generated with AWS generative AI.

HeyJobs measures its success by linking the right employers with the right talent. To do this it needs the latest technology that allows its engineers to create new features and functionality. Using Amazon Web Services (AWS) Managed Services, says chief technology officer Boris Diebold, liberates his team from operations, security, and systems updates. With faster development cycles and easier compliance with regulations such as General Data Protection Regulation (GDPR), HeyJobs can focus on maintaining a competitive edge.
