Phrase Improves Data Quality for Authentic Content Localization Using Generative AI and AWS

[Phrase](#)'s software-as-a-service platform streamlines content localization and translation, helping customers reach audiences in their own language and in the right cultural context.

Phrase's software-as-a-service platform streamlines content localization and translation, helping customers reach audiences in their own language and in the right cultural context. Using Amazon Web Services (AWS), the company can scale reliably 24/7 around the world, and with generative artificial intelligence (AI) it can help ensure data is of the highest quality. Platform engineers can experiment with new

Hi, I can connect you with an AWS representative or answer questions you have on AWS.
