# NOMURA

## Nomura Improves Developer Efficiency Building on AWS

Learn how Nomura improved developer efficiency using AWS DeepRacer and artificial intelligence and machine learning on AWS.

Nomura is a global investment bank that has been on a cloud adoption journey on Amazon Web Services (AWS) since 2019. In this video, Murali Kaundinya, managing director and head of Software Engineering, shares how Nomura used [AWS DeepRacer](#) events—a hands-on machine learning experience through a cloud-based 3D racing simulator—to help developers innovate in an engaging way. By using a cloud-first strategy, Nomura is able to decouple components associated with legacy applications. Nomura works closely with AWS Partners to understand how these capabilities can assist in creating a seamless customer experience.

Hi, I can connect you with an AWS representative or answer questions you have on AWS.

## AWS Services Used

### AWS DeepRacer

AWS DeepRacer gives you an interesting and fun way to get started with reinforcement learning (RL). RL is an advanced machine learning (ML) technique that takes a very different approach to training models than other machine learning methods. Its super power is that it learns very complex behaviors without requiring any labeled training data, and can make short term decisions while optimizing for a longer term goal.
