Hi, I can connect you with an AWS representative or answer questions you have on AWS.

AWS Partner Adastra Supports KWS in Generative AI Adoption

Need more info? Highlight any text to get an explanation generated with AWS generative AI.

Global seed producer [KWS](#) uses Amazon Bedrock and generative artificial intelligence (AI) to boost research speed and efficiency. Supported by [Adastra](#), an Amazon Web Services (AWS) Partner, KWS use cases powered by different large language models, knowing it's operating securely and

KWS’s work developing new seeds for farmers is a research-intensive business. With scale and security in the Amazon Web Services (AWS) Cloud—and support from Adastra, an AWS Partner—it can explore generative artificial intelligence (AI) use cases that help it work more efficiently. Here, Bjørn Øst Hansen, KWS’s senior research lead for knowledge discovery, and Dr. Johannes Mellenthin, Adastra’s vice president of cloud for Germany, Austria, and Switzerland, talk about the benefits of using [Amazon Bedrock](#). Access to state-of-the-art large language models gives KWS flexibility, allowing it to prototype and test without significant IT infrastructure costs.
