SIEMENS energy

Connecting Legacy Factory Equipment to Improve Factory Automation with Siemens Energy

Learn how Siemens Energy automated machine data collection, lowered asset maintenance cost, and improved visibility for operations personnel on the shop floor.

Many industrial companies have diverse factory technologies and multiple machine protocols to perform data analytics. [Siemens Energy](#) collaborated with Amazon Web Services (AWS) to automate machine data collection, lower asset maintenance costs, and improve visibility for operations personnel on the shop floor. We created a blueprint for connecting multiple factories to the cloud using [AWS IoT SiteWise](#) and [Docker](#).

Hi, I can connect you with an AWS representative or answer questions you have on AWS.
