

Building the Foundation for AI: Workhuman Transforms Data Management on AWS

Contact Us

"AI, in general, is massively important. However, AI can't really work unless there's a very solid data foundation underneath it."

Mark Greville
Vice President of Architecture, V

Human capital management software provider Workhuman helps businesses build a workplace culture that increases employee satisfaction and reduces churn. The company has transformed its infrastructure using Amazon Web Services (AWS), moving from a fully on-premises setup to a scalable cloud environment that supports innovation. Mark Greville, vice president of architecture, talks about how Workhuman unified disparate data sources into a single, elastic platform on AWS. This has improved data access and use, and empowered customers to create custom analytics and enhance decision-making.
