

Plan A's Responsible Route to Decarbonization Using Generative AI and AWS

[View All Customer Stories](#)

“As a startup company, AWS for us was an obvious choice because we didn’t need to invest in a heavy IT team to set up our infrastructure and application.”

Carsten Windler
Principal Engineer, Plan A

Hi, I can connect you with an AWS representative or answer questions you have on AWS.

For corporate carbon accounting, decarbonization, and sustainability reporting software provider Plan A, Amazon Web Services (AWS) was the “obvious choice,” says principal engineer Carsten Windler. Here, Windler, along with the company’s cofounder Nathan Bonnisseau, talk about the on-demand scalability that helped Plan A set up quickly and cost-effectively. And how today it uses generative artificial intelligence (AI) to craft a smarter approach to decarbonization for itself and its customers.
