Cloud Talent Sparks Innovation

Globe’s leadership position in the competitive telecommunications industry relies on its cloud-first business strategy and on acquiring and retaining the best technical talent. Leveraging the proven [AWS Skills Guild](#) framework, Globe has built a high-engagement cloud skills training program, Athena, focused on curiosity, excitement, and innovation. The Athena program helps attract people who value ongoing professional development and expanded career opportunities, giving Globe access to the skills and ideas needed to deliver the leading-edge products and services its customers demand.

Reduced Operational Costs

Over the first 15 months of Athena, Globe reduced about \$1.5M USD (75M PHP) in operational costs by being more efficient with their technical resources, and shortening times between design and go-live checkpoints.

Increased AWS Certifications

With the use of AWS Skills Guild framework and the Athena digital leaderboard, Globe achieved a 25% year-over-year increase AWS Certifications.

Common Cloud Language

Across Globe, teams now have a common language to collaborate more seamlessly, enabling IT and business units to communicate more effectively than ever and increasing the collective knowledge of Globe cloud community.

Closing Skills Gaps

Globe continues to see success with hiring top talent into technical roles as a result of their progressive approach to cloud training and professional development.

Innovative Cloud Training Drives Engagement from Globe Employees

With AWS Skills Guild, a comprehensive training framework, Globe builds on their success to increase their in-house technical talent.
