Nomura Uses Llama Models from Meta in Amazon Bedrock to Democratize Generative AI

Learn about Nomura's journey to democratize generative AI firm-wide using Llama models from Meta in Amazon Bedrock.

Aniruddh Singh, Nomura's executive director and enterprise architect, outlines the financial institution's journey to democratize generative AI firm-wide. Amazon Bedrock provides critical access to leading AI models, which offers key benefits to Nomura, including faster time to market and improved performance across text summarization and other use cases.

Hi, I can connect you with an AWS representative or answer questions you have on AWS.

AWS Services Used

Amazon Bedrock

Amazon Bedrock is a fully managed service that offers a choice of high-performing foundation models (FMs) from leading AI companies like AI21 Labs, Anthropic, Cohere, Meta, Mistral AI, Stability AI, and Amazon through a single API, along with a broad set of capabilities you need to build generative AI applications with security, privacy, and responsible AI.
